

Economically superior

**Sustainably superior –
ductile iron pipe systems**

- push-in joints make for highly productive installation
- no welding needed
- installation in all weathers
- sand bedding often not required
- concrete thrust blocks not needed when joints are restrained
- joints can be deflected angularly
- wide range of fittings and valves available so no need for specials
- extremely low damage rates
- operating life of up to 100 years or more
- ▶ reduces labour costs
- ▶ reduces labour costs
- ▶ reduces labour costs
- ▶ reduces materials and logistics costs
- ▶ reduces materials and logistics costs
- ▶ saves on fittings
- ▶ reduces materials and labour costs
- ▶ reduces operating, energy, repair and maintenance costs
- ▶ keeps renovation budgets to a minimum

Investing in ductile iron pipe system pays for itself in low installation and operating costs with, at the same time, an extremely long operating life!
